## INTERACTIVE LIVE VITUAL PROGRAM

### Program Co-Chairs:

**Dr. Jillian Coolen**

Associate Professor

Department of Obstetrics and Gynecology  
Dalhousie University

[Jillian.coolen@iwk.nshealth.ca](mailto:Jillian.coolen@iwk.nshealth.ca)

**Dr. Lua Eiriksson**

Associate Professor

Department of Obstetrics and Gynecology  
McMaster University

[eiriksson@hsc.ca](mailto:eiriksson@hsc.ca)

### Program Coordinator:

**Louise Bruns**

Canadian Obstetrics and Gynecology  
Review Program

Telephone: (519) 699-9232

E-mail: [info@obgynreview.ca](mailto:info@obgynreview.ca)

## INTERACTIVE LIVE VITUAL PROGRAM

**May 26-28, 2023**

**At the end of this course, participants will be able to:**

- Assess their knowledge across the spectrum of identified topics in obstetrics and gynecology;
- Identify areas of strengths and weaknesses by utilizing touch pad technology.

Friday, May 26, 2023

### Gestational Trophoblastic Neoplasia

Dr. Lua Eiriksson

- Recognize and diagnose GTD.
- Name different classifications of malignant GTD (GTN).
- Assess low and high risk GTN patients.

### Gestational Hypertension and Fetal Growth Restriction

Dr. Jason Burrows

- Review classification of hypertensive disorders of pregnancy.
- Recognize pre-eclampsia with respect to prediction, prevention and prognosis.
- Develop an approach to the management of fetal growth restriction.

### Cervical Cancer

Dr. Anna Cameron

- Describe the role of HPV in cervical cancer.
- List the incidence and the treatment of cervical cancer precursors.
- Create an outline of the stages of cervical cancer.
- Describe the management of cervical cancer.
- Recognize the role of radiation in cervical cancer.

### Approach to Vulvar Dermatology and Vulvar Pain

Dr. Robert Kennedy

- Demonstrate knowledge, diagnosis and treatment options of common benign gynecological conditions.

### Steroid Biosynthesis Function, Anovulation, PCOS and Hirsutism

Dr. Jason Elliott

- Describe the prevalence and list the main causes of infertility.
- Develop an approach to help infertile couples.

### Infertility

TBD

- Identify the basic building blocks of steroid hormones.
- Review steroidogenesis pathway.

### Vulvar Cancer

Dr. Joannie Neveu

- Identify common vulvar pathologies and know how to treat them.
- Review how do perform vulvar biopsies and when to do them.

### Infections in Pregnancy

Dr. Chelsea Elwood

- Identify characteristics, epidemiology and pathogenicity of common infectious agents and conditions.
- Discuss the treatment regimens in use, based on current evidence.

### Gynecologic Infection

Dr. Chelsea Elwood

- Discuss common gynecological infections and review current treatment regimens.
- Test your knowledge by answering exam questions regarding hormones/steroid pathway/functions.

Saturday, May 27, 2023

### Prenatal Diagnosis (Screening, Preconception Counseling, Teratology)

Dr. Laura Gaudet

- Summarize an overview and approach for prenatal screening, preconception counseling, diagnostic testing for aneuploidy and teratology.

### Ovarian Cancer

Dr. Tiffany Zigras

- Discuss the etiology, prevalence, screening and management programmes, based on current evidence, for the primary management of ovarian cancer.

### Multiple Pregnancy

Dr. Sue Chandra

- Review of factors that influence twinning.
- Recite the complications of diagnosing and treating abnormalities of multiple pregnancies and to list the different safe options in managing labor in a multiple gestation.

### Urogynecology

Dr. Kristin Wadsworth

- Recognize the pathophysiology, investigation, diagnosis, and/or management of urogynecology conditions.

### Uterine Cancer

Dr. Justin McGinnis

- Discuss the precursors, histology and management of epithelial and stromal tumors.

### Too Early or Too Late: Precocious Puberty and Primary Amenorrhea

Dr. Maria Kielly

- List some of the aspects of precocious puberty and delayed puberty/primary amenorrhea with respect to normal pubertal milestones, differential diagnosis, investigation and management issues.

### Medical Complications in Pregnancy (Part 1)

Dr. Jillian Coolen

Using a systems-based approach, this session will:

- Review normal maternal physiologic adaptations to pregnancy.
- Examine maternal medical complications of pregnancy and their management (respiratory, neurologic, gastrointestinal, diabetes, parathyroid, rheumatologic and critical care).

### Medical Complications in Pregnancy (Part 2)

Dr. Jennifer Hunt

Using a systems-based approach, this session will:

- Review normal maternal physiologic adaptations to pregnancy.
- Examine maternal medical complications of pregnancy and their management (cardiovascular, renal, hematologic, dermatologic, thyroid and malignancies).

Sunday, May 28, 2023

### Menopause and Hormone Therapy

Dr. Michelle Jacobson

- List and describe the different types of HRT.
- Identify and discuss evidence-based guidelines related to menopause and HRT.

### Contraception

Dr. Ashley Waddington

- Review effectiveness, indications/contraindications, side effects and non-contraceptive benefits of combined hormonal contraceptives, emergency and intrauterine contraception.
